As a web developer, I specialize in both front-end and back-end technologies, with a focus on front-end development. I'm proficient in TypeScript, JavaScript, React, Redux Toolkit, Next.js, HTML5, CSS3 and I excel at creating scalable, responsive web applications. My experience includes designing with Photoshop and Figma, building modular servers using Express.js and TypeScript, and working with SQL/NoSQL databases. Additionally, I handle version control with GitHub and have successfully completed testing challenges using Jasmine and Jest.

I am a proactive individual who takes initiative in identifying opportunities for improvement and implementing solutions. My strong sense of responsibility ensures that I consistently meet deadlines and deliver high-quality results in every task I undertake. I possess excellent communication skills, allowing me to articulate ideas clearly and collaborate effectively with team members and clients. Additionally, I have a knack for turning creative ideas into actionable plans, ensuring they are executed efficiently.

PROJECTS

Front-end developer - "AgroDexports" sep. 2024- nov. 2024

<https://github.com/DavidRocFeler/AgroDexports.git>

- **Ecommerce Project:** Front-end developer and UI/UX designer of the prototype in Figma, project focused on a B2B e-commerce for the export of agricultural products.
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend; Express, MySQL, and PostgreSQL and Prisma for backend.
- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills, with a prototype created in Figma.
- **Deploy:** <https://agrodexports.onrender.com/>

Full stack developer - "HenryEcommerce" aug. 2024- sep. 2024

<https://github.com/DavidRocFeler/HenryCommerce.git>

- **Ecommerce Project:** Full stack ecommerce platform for selling tech products (smartphones, laptops, tablets, smartwatches, accessories).
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend; Express, MySQL, and PostgreSQL for backend.
- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills, with a prototype created in Figma.

Full stack developer - "D rents" jul. 2024 - ago. 2024 <https://github.com/DavidRocFeler/Drents.git>

- **Property Rental App:** Full stack app for property rentals where users can schedule appointments to view properties,

acting as a booking manager.

- **Technologies Used:** React with Vite and Redux for global state management, using CSS modules for styling and JSX components.
- **Backend & Database:** Backend is typed with TypeScript, using the same technologies and databases (MySQL and PostgreSQL) as the previous project.
- **Authentication & Security:** Includes user validation and authentication for login and signup.

Full stack developer - “StreamD” jun. 2024 - jul. 2024 <https://github.com/DavidRocFeler/StreamD.git>

- **Technologies Used:** Developed with **JavaScript** on the backend using **Mongoose** for managing a non-relational database. It employs **HTML** for the views and **Webpack** to bundle the scripts.
- **Main Functionality:** The application allows for the redirection and display of movies on the frontend, utilizing **HTTP requests** to dynamically fetch data.
- **Project Structure:** The focus is on modularity and efficiency, using HTML documents packaged through Webpack to optimize application performance.

Full stack developer - “Start4” may. 2024 - jun. 2024 <https://github.com/DavidRocFeler/Start4.git>
<https://www.manager-start4.nl>

Full stack developer - “CoinVeloper” apr. 2024 - may. 2024 <https://github.com/DavidRocFeler/CoinVeloper.git>
<https://www.coinveloper.com/>

Front end prototype - “BusWeb” “Responsive” mar. 2024 - apr. 2024
<https://github.com/DavidRocFeler/BusWeb.git> <https://davidrocfeler.github.io/BusWeb/>

PROFESSIONAL EXPERIENCE

Real Estate Development Coordinator jun 2022 - nov 2023. Granadero real state.

- Submit documents to public entities to obtain the necessary permits for new real estate projects.
- Identify and attract clients interested in selling their properties or developing new condominiums, facilitating agreements that benefit both parties.
- Seek property owners willing to rent out their properties and act as a real estate agent, connecting these clients with potential tenants and generating commissions for the company.

Supply chain analyst mar 2018 - feb 2020 Campo Sol S.A..

- Analyze supply chain processes related to agricultural exports, identifying efficiencies and areas for improvement.
- Coordinate logistics for transporting products from farms to distribution centers, ensuring international shipments and proper inventory management.
