---

As a web developer, I specialize in both front-end and back-end technologies, with a focus on front-end development. I'm proficient in TypeScript, JavaScript, React, Redux Toolkit, Next.js, HTML5, CSS3 and I excel at creating scalable, responsive web applications. My experience includes designing with Photoshop and Figma, building modular servers using Express.js and TypeScript, and working with SQL/NoSQL databases. Additionally, I handle version control with GitHub and have successfully completed testing challenges using Jasmine and Jest.

I am a proactive individual who takes initiative in identifying opportunities for improvement and implementing solutions. My strong sense of responsibility ensures that I consistently meet deadlines and deliver high-quality results in every task I undertake. I possess excellent communication skills, allowing me to articulate ideas clearly and collaborate effectively with team members and clients. Additionally, I have a knack for turning creative ideas into actionable plans, ensuring they are executed efficiently.

### PROJECTS

#### Full-stack developer - "LerenBlackboard" jun. 2025- jul. 2025

<https://lerenblackboard-demo.vercel.app/>

- **App education:** An educational application to improve efficiency and education in Latin America, allowing students to interact with their own virtual platform to view important data.

- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills, alpha version.

#### Full-stack developer - "Ainventory" may. 2025- jun. 2025

<https://ainventory-beryl.vercel.app/>

- **App inventory:** Boost restaurant efficiency with our free alpha inventory app. Custom features tailored for any customer.
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend; Express, MySQL, and PostgreSQL
- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills, alpha version.

#### Full-stack developer - "Epe Social Event" apr. 2025- may. 2025

<https://social-events.vercel.app/>

- **App inventory:** Boost restaurant efficiency with our free alpha inventory app. Custom features tailored for any customer.
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend; Express, MySQL, and PostgreSQL
- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills.

### Front-end developer “Ingenius” dic. 2024- mar. 2025

<https://ingenius-lydg.vercel.app/>

- **App inventory:** Boost restaurant efficiency with our free alpha inventory app. Custom features tailored for any customer.
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend;
- **Key Strength:** Strong front-end design skills, alpha version.

### Front-end developpe - “AgroDexports” sep. 2024- nov. 2024

<https://github.com/DavidRocFeler/AgroDexports.git>

- **Ecommerce Project:** Front-end developer and UI/UX designer of the prototype in Figma, project focused on a B2B e-commerce for the export of agricultural products.
- **Technologies Used:** React, Next.js, Tailwind CSS, and TypeScript for frontend; Express, MySQL, and PostgreSQL and Prisma for backend.
- **Authentication & Security:** Includes user validation and authentication for login and signup.
- **Key Strength:** Strong front-end design skills, with a prototype created in Figma.
- **Deploy:** <https://agrodexports.onrender.com/>

**Explore more of my work on my portfolio:** <https://rocfeler.vercel.app/>

## PROFESSIONAL EXPERIENCE

### Training IA may 2024 - present. Outlier.

- **Response Evaluation:** The responses generated from a notice must be evaluated with important criteria such as coherence, relevance, truthfulness and precision among others to evaluate each response.
- **Data Preprocessing:** I have been involved in the preparation and cleaning of large volumes of data to ensure that it is adequate and relevant for model training.

### Real Estate Development Coordinator jun 2022 - nov 2023. Granadero real state.

- Submit documents to public entities to obtain the necessary permits for new real estate projects.
- Identify and attract clients interested in selling their properties or developing new condominiums, facilitating agreements that benefit both parties.
- Seek property owners willing to rent out their properties and act as a real estate agent, connecting these clients with potential tenants and generating commissions for the company.

### Supply chain analyst mar 2018 - feb 2020 Campo Sol S.A..

- Analyze supply chain processes related to agricultural exports, identifying efficiencies and areas for improvement.
- Coordinate logistics for transporting products from farms to distribution centers, ensuring international shipments and proper inventory management.

## TECHNOLOGIES:

NextJS, Postgress, Express, Moongose, React, Tailwind, NodeJS, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Figma, Photoshop
